

**Help Flash,  
a light that saves lives.**

SEAT **SERVICE.**

SEAT is committed to continuous product and service improvement and may amend the specifications set forth in this publication without prior warning. (01/2019).

## Help Flash.

If your vehicle breaks down on the side of the road, you must warn other users. Help Flash is a compact, automatic and stand-alone warning system.

- Using it is intuitive at stressful moments.
- It protects you in seconds and makes you visible to all other drivers.
- Quick and simple, it is highly effective in emergency situations.

### Current warning systems:

- Do not place the safety of a vehicle's occupants first.
- Are not efficient because it takes several minutes to use them.
- Cannot be used on two-wheeled vehicles.
- Cannot be used by persons with reduced mobility.

### Automatic magnetic activation.

Utmost ease and simplicity of use. Stick it on any metal surface, and it will begin emitting an automatic, flashing yellow signal. You can also activate it manually.

### Additional white light.

#### Use it like a torch!

Stick it on the sheet metal of a vehicle or simply place it on a flat surface, and you'll have both hands free to perform any task, with a battery life of 5 hours.

### Stand-alone and no cables.

2.5 hours of battery life in emergency mode using a commercial 9V alkaline battery (6LR61).

### 360° visibility to a distance of 1 km.

The patented parabolic reflector guarantees optimal light dispersion and employs the latest LED technology so that your vehicle is visible in all directions up to a distance of 1 km in low-light conditions.

### Light weight, compact and easy to store.

Small and manageable. Store it anywhere in a vehicle and take it with you wherever.

### Weather isn't a problem!

Suitable for all types of weather conditions: rain, snow, wind or fog.

## Current protocol. 8 steps = 8 minutes

1. Turn on the emergency lights.

2. Put on a reflective vest.

3. Set up warning triangles.

## Immediate warning with Help Flash. 3 steps = 30 seconds

1. Take out Help Flash.

2. Put it on the roof.

3. Call for help.
